

#### Memory Paper Cups

#### Design Specification:

Have you ever taken a cup by mistake? Whether those same paper cups upset you sometime? "Memory Paper Cups" helps you solve the problem. It is unique in round scratch cards layer at the bottom, which allows you to scratch any pattern you like with nails to mark your won paper cup. Thus, you can distinguish your cups from the others.

# Absorb Dandelion

For the extreme climate changes or the influences of environmental pollution in the future, it will be more difficult for us to collect clean rainwater effectively.

Because of two possible factors may force us to consider collecting water resource from **ocean** and **desert**, which are the rainfall around the world may reduce severely and most of rain is in the ocean instead of in reservoirs.

Design concept/

The ring of life is a concept of permanent cycle. So much of life is only from youth to old and from cradle to grave which is a necessary process and inevitable cycle. The most important thing is let the soul and spirit of life passed along before you turn into dust. Let the trojan in childhood and the rocking chair in old age do the same action of rocking combined together. It means that not only the joy with your grandchildren and the power of inheritance of life which lasts the life eternally. Lasta the life eternally.
